

# Dyslexia-Friendly Web Content Creation

---

## DO:

- Provide alternative formats such as audio/video

- Use clear/simple language to improve comprehension

- Use sans-serif fonts like Arial, Verdana, or Open Dyslexic.

- Align Text to the left (never justify)

## DON'T:

- Don't use italics or ALL CAPS excessively.

- Don't rely on color alone to convey meaning.

- Don't overload pages with dense text blocks.

- Don't use flashing or moving text.
